

Miniature Circuit Breaker Lockout

- Be made of ABS resin, nylon, corrosion resistance and good insulation performance.
- Pin out, with a unique design of the rod, easy to install.
- Use with professional safety padlock and tag together.

BD-8111

BD-8112

BD-8114

Model	Description
BD-8111	Pin out, suitable for the circuit breaker toggle switch width ≤ 12mm, ABS
BD-8112	Pin out, suitable for the circuit breaker toggle switch width ≤ 20mm, ABS
BD-8114	Pin in, suitable for locking space maximum 12.7mm, ABS materials

Multi-mini Breaker Lockout

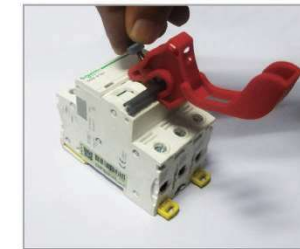

- Be made of ABS resin, corrosion resistance and good insulation performance.
- External dimensions: Length 58mm, Width 42mm, Thickness 14.5mm.
- With a handle can tighten directly to install, easy to use, without assistant tools.
- Use with professional safety padlock and tag together, padlock can be horizontal or vertical locked in two methods.

Step 1

Step 2

Step 3

Model	Description
BD-8113	Suitable for the circuit breaker toggle switch thickness maximum 9mm, no limit for width.

NEW!

Push Button Miniature Circuit Breaker Lockout

- Be made of ABS and brass screw with chrome plated.
- With a screw can tighten to install, easy to use, without assistant tools.
- Special square hole card slot and screw can guarantee will not appear any swing after be locked.
- Can customize to mark on lockout by laser.

suitable this kind of circuit breaker

Step 1

Step 2

Step 3

Model	Description
BD-8118	Suitable for push button circuit breaker (button dimensions ≤ 14.5mm X 22mm)

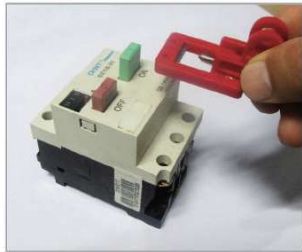

Multi-function Circuit Breaker Lockout

- Be made of ABS and brass screw with chrome plated.
- With a screw can tighten to install, easy to use, without assistant tools.
- Special square hole card slot and screw can guarantee will not appear any swing after be locked.
- Can customize to mark on lockout by laser.

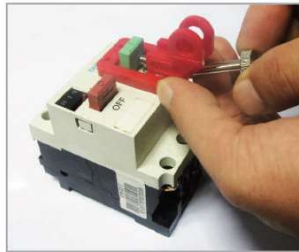

Model	Description
BD-8119	Suitable for miniature circuit breaker (handle width $\leq 17\text{mm}$, handle thickness $\leq 15\text{mm}$)

Step 1

Step 2

Step 3

Circuit Breaker Lockout(small)

- Be made of ABS resin, corrosion resistance and good insulation performance.
- Special stainless steel teeth design, fixed by screw, providing better bite for handle.
- According to the circuit breaker handle space, the adjustable baffle can move to confirm the suitable position.
- Use with professional safety padlock and tag together.

Model	Description
BD-8121	Suitable for handle width $< 19.5\text{mm}$, thickness $< 10\text{mm}$

Step 1

Step 2

Step 3

Moulded Case Circuit Breaker Lockout

- Made from rugged reinforced nylon PA.
- Can lock it with screw driver.
- Can accommodate one safety padlock with shackle diameter $\leq 7\text{mm}$.
- Can lock all kinds of circuit breakers.

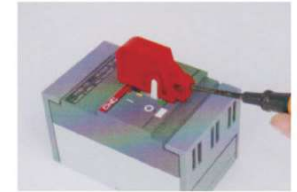

Model	Description
BD-8123A	Suitable for single pole miniature circuit breakers with handle width $\leq 7.7\text{mm}$.
BD-8123B	Suitable for 2 to 4 poles miniature circuit breaker
BD-8123C	Suitable for mini and middle size circuit breakers with handle width $\leq 5\text{mm}$
BD-8123D	Suitable for mini and middle size circuit breakers with handle width $\leq 5\text{mm}$
BD-8123E	Suitable for large size circuit breakers
BD-8123F	Suitable for mini size circuit breakers with handle width $\leq 9.3\text{mm}$, middle size circuit breakers with handle width $\leq 12\text{mm}$

Circuit Breaker Lockout(big)

- Be made of ABS resin, corrosion resistance and good insulation performance.
- Special stainless steel teeth design, fixed by screw, providing better bite for handle.
- Use with professional safety padlock and tag together.

Model	Description
BD-8122	Suitable for handle width < 41mm, thickness < 15.8mm

Knife-switch Lockout

- Be made of ABS resin, corrosion resistance and good insulation performance.
- One set includes a red and a green, and red indicates connection, green indicates disconnection.
- Use with professional safety padlock and tag together.

Model	Description
BD-8125	Suitable for 220/380V circuit breaker

Circuit Breaker Lockout(small)

- Shell is made of ABS resin, and main body is zinc alloy.
- External dimensions: Length 68.5mm, Width 23.5mm, Thickness 14mm.
- With a knob can tighten directly to install, easy to use, without assistant tools.
- Use with professional safety padlock and tag together.

Model	Description
BD-8126	Suitable for the circuit breaker toggle switch thickness < 10mm, no limit for width.

Step 1

Step 2

Step 3

Circuit Breaker Lockout(big)

- Shell is made of ABS resin, and main body is zinc alloy.
- With a knob can tighten directly to install, easy to use, without assistant tools.
- Use with professional safety padlock and tag together.

Model	Description
BD-8127	Suitable for the circuit breaker toggle switch width < 60mm, thickness < 23mm.

Rotary adjusting lever

moving stop

Step 1

Step 2

Step 3

Multi-function Medium-sized Circuit Breaker Lockout

- Be made of ABS and brass screw with chrome plated.
- With a screw can tighten to install, easy to use, without assistant tools.
- The unique T slot design makes lockout more solid and reliable

Model	Description
BD-8128	Suitable for all kinds of medium-sized circuit breaker (handle thickness: 11mm-18mm, no limit to width).

Step 1

Step 2

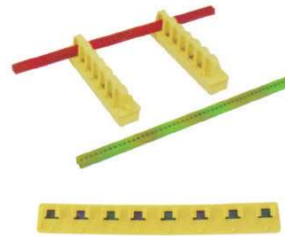

Step 3

480V~600V Breaker Lockout

- Made from engineering plastic alloy.
- Back self-adhesive track can fix on the distributor forever—clean the surface of the distributor no hole needed.
- To lock the special large or unique shape switch, the length of the rod is 19cm.
- Red stop rod means the switch is in the off state, green stop rod means the switch is in on state

Back self-adhesive track
(can put stop rod isolated)

Model	Description
BD-8129	Can accommodate two safety padlocks with shackle diameter ≤ 7mm

Emergency Stop Lockout

- It is transparent acrylic injection molding, with warning yellow base, safe and eye-catching.
- Install on the push-pulled or knob released emergency stop button to prevent misoperation permanently.
- Use with professional safety padlock and tag together.

Model	Description
BD-8131	Install hole diameter 22mm
BD-8132	Install hole diameter 30.5mm

Electric Button Switch Lockout

- It is transparent ABS resin injection molding.
- Bottom border use double-sided adhesive tape to stick, easy to install.
- Use with professional safety padlock and tag together.

Model	Description
BD-8141	Bottom hole diameter 29mm

Universal Switch Lockout

- Be made of impact resistant transparent ABS resin.
- Bottom border use double-sided adhesive tape to stick, easy to install.
- Use with professional safety padlock and tag together.

Model	Description
BD-8142	Bottom square hole size 69mm X 69mm, applicable for most square switches.

Quick Install Emergency Stop Lockout

- It is transparent acrylic injection molding.
- The lockout is made up of two parts: the lockout cover and the base. The base is fixed on the bottom of the switch. Just need to install or remove the lockout cover and easy to use.
- Use with professional safety padlock and tag together.

BD-8136

8133 Install Base

8134 Install Base

8135 Install Base

Model	Description
BD-8136	Diameter 62mm, height 54mm

Quick Install Gear Switch Lockout

- It is transparent acrylic injection molding.
- The lockout is made up of two parts: the lockout cover and the base. The base is fixed on the bottom of the switch. Just need to install or remove the lockout cover and easy to use.
- Use with professional safety padlock and tag together.

BD-8145

8143 Install Base

8144 Install Base

Model	Description
BD-8145	Diameter 71.5mm, height 99mm

Step 1

Step 2

Step 3

Electric Switch Lockout

- It is transparent ABS resin injection molding.
- External dimensions: Length 61.7mm, Width 30.5mm, Height 18.5mm;
- Bottom border use double-sided adhesive tape to stick, easy to install.
- Use with professional safety padlock and tag together.

Model	Description
BD-8151	Bottom hole size: Length 32mm, Width 27mm

General Wall Switch Lockout

- It is industrial grade transparent ABS resin injection molding, beautiful and practical and can lock switch effectively. Prevent accidental operation.
- Applicable 110V ~ 220V Chinese standard 86 series wall switch.
- Lockout open method: up and down to open.
- Use with professional safety padlock and tag together.

Model	Description
BD-8161	External dimensions: Length 124mm, Width 96.5mm, Thickness 33.5mm

General Wall Socket Lockout

- It is industrial grade transparent ABS resin injection molding, beautiful and practical and can lock socket effectively. Prevent accidental operation.
- Lockout open method: left and right to open.
- Use with professional safety padlock and tag together.

Model	Description
BD-8162	Applicable 110V ~ 220V Chinese standard 86 series wall socket

General Wall Switch Lockout (European and American Standards)

- It is industrial grade high strength polypropylene injection molding, beautiful and practical and can lock switch effectively. Prevent accidental operation.
- Lockout open method: up and down to open.
- Use with professional safety padlock and tag together.

Model	Description
BD-8171	Applicable 110V ~ 220V European and American Standards wall switch

Plug Lockout

- Be made of ABS resin, side hole diameter 10mm.
- Stick with sunscreen label can write the name of the person in charge and matters.
- Use with professional safety padlock and tag together.

Model	Description
BD-8181	External dimensions: Length 103mm, Width 60mm, Height 60mm

Big Plug Lockout

- Be made of ABS resin, side hole diameter 25mm.
- Four lock holes are available, multiple persons co-management to prevent accidental connection.
- Use with professional safety padlock and tag together.

Model	Description
BD-8182	External dimensions: Length 178mm, Width 80mm, Thickness 85mm

Two-phase Plug Lockout

- Be made of ABS resin, patent protection product.
- Stick with sunscreen label can write the name of the person in charge and matters.
- Use with professional safety padlock and tag together.

Model	Description
BD-8183	Applicable 220V two-phase flat plug

Three-phase Plug Lockout

- Be made of ABS resin, patent protection product.
- Stick with sunscreen label can write the name of the person in charge and matters.
- Use with professional safety padlock and tag together.

Model	Description
BD-8184	Applicable 10A 220V three-phase power plug
BD-8185	Applicable 16A 220V three-phase power plug

European Standard Two-phase Plug Lockout

- Be made of ABS resin, patent protection product.
- Stick with sunscreen label can write the name of the person in charge and matters.
- Use with professional safety padlock and tag together.

Model	Description
BD-8186	Applicable 220V two-phase round plug and European standard power plug

Trapezoidal Plug Lockout

- Be made of ABS resin, trapezoidal plug lockout, patent protection product.
- Use with professional safety padlock and tag together.

Model	Description
BD-8187	Provide lock protection for the computer host and electrical equipment

Crane Lift Controller Lockout Bag

- Made of sewing tear-resistant nylon fabric, length 450mm, width 250mm.
- There is a PVC barrier in the bag to prevent people from accidentally starting the controller button.
- The bag surface is marked with warning sign.
- Use with professional safety padlock and tag together.

BD-8191

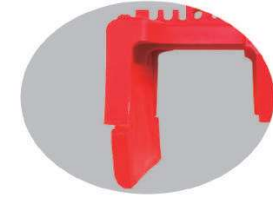

BD-8192

Model	Description
BD-8191	External dimensions: Length 450mm, Width 250mm
BD-8192	External dimensions: Length 450mm, Width 250mm

Ball Valve Lockout

- Be made of high strength polypropylene, excellent anti-fracture, wear resistance and insulation performance.
- Can adjust the position of the padlock arbitrarily, convenient and quick.
- Use with professional safety padlock and tag together.

Model	Description
BD-8211	External dimensions: Length 208mm, Width 77mm, Height 130mm

Rotation Valve Lockout

- Be made of reinforced nylon PA6 and stainless steel, durable and resistance to chemicals, corrosion resistance.
- Unique design to lock the ball valve from which handle can be removed.
- Use with professional safety padlock and tag together.

Model	Description
BD-8214	Suitable for handle up to 34mm X 49mm

Step 1: orthogonal

Step 2: screw tightly

Step 3: lock
